

EEE 598
Introduction to Complex Networks
Spring 2018

Homework 4

Due: Thursday, March 1, in class

(100 points)

Write a one-page outline of your plan for the final project, which should contain the following items:

- Title
- Background
- The main question that you would like to ask
- Why is the question meaningful or even important for the field of network science and engineering?
- Plan to address the question, e.g., through numerical computations and/or mathematical analysis
- At least one main reference
